upon him that the gentlemen who the pending canvass. enacted these laws hold to the opinpublic debts are public blessings.

almost 840 for every vote cast in the will be substancially made good. Auditor of State, "in several the tion. rates of levy exceed three per cent., Legislature was plain. They were power of local authorities to incur debts and levy taxes should be preserved and enforced, and especially that no increase of liabilities should be authorized except in cases of pressing necessity.

Now consider the facts. These gentlemen professed to be scrupulously strict in their observance of the requirements of the Constitution. Yet under provisions which contemplate one legislative session in two years they held two sessions in the same year, and three sessions in their term of two years. They double that of their Republican predecessors.

They created between thirty and forty new offices, at a cost to the people for salaries, fees and expenses of at least \$75,000 per annum. They added to the State liabilities for various purposes about \$1,500,-000. In order to avoid an increase of taxes levied for State purposes, they diminished the sum levied to pay the State debt, and increased the levy for other State purposes almost \$600,000.

The acts of the last Legislature in relation to local debts and local taxes are of the most extraordinary character. These acts relate to their precedent." raising money for county purposes, for township purposes, for city and village purposes, and for special purposes. These taxes or debts are levied or incurred under the direction of County Commissioners, Township Trustees, or of city or village Councils, or derive their authority exclusively from State legislation. The State Legislature has next December. At this juncture throughout the Southern States. therefore the control of the whole matter. Now, the general statement which I wish to make, and which I believe is sustained by the facts, is, that the late Democratic Legislature authorized greater local pecuaiary burdens to be imposed upon the people of Ohio, without their consent, than were ever before authorized by any General Assemble wither in peace or in war, since the organization of our State Gov-

Sixty or seventy different acts were passed authorizing debts to be contracted amounting in the aggregate to more than \$25,000,000. A large part of them bear eight per cent. interest, and a very small part bear less than seven and three-tenths per cent. interest. And they passed seventy or eighty acts by which additional taxes were authorized to the amount of over \$10,000,000.

THE ECONOMICAL GRAIN-SAVING "AULTMAN & TAYLOR" **Threshing Machines** AND EIGHT AND TEN HORSE "Mounted" & "Down" Powers, AULTMAN & TAYLOR M'F'G CO. MANSFIELD, OHIO.

Branch Office: CHICAGO, ILL.

THE CORRECT PRINCIPLE. The great advantage of the method employed to separate the grain from the straw in this machine is unmistakeable. It is reputed to save enough on an average over other kinds of machines, to pay the farmers' threshing bill, and its superiority is readily conceded by all except "agents" and "manufacturers" of the old style, who are blinded by conflicting interests.

Parts Dispensed With.—It has no Beaters; no Pickers; no Canvas Grain Carrier; no Raddles; and only about half as many Belts, Gear Wheels, Boxes, Journals, Shafts, Pulleys, etc., to "clog," "wind," wear out, waste grain. add to draft or to be kept in Expair as other kinds, Hence Results its comparative Ease of Draft Cheapness of Repairing, Ease of Manage-Durability, etc. Its decided advantage in any one of these important features afone, would give it prominence. But it clearly excels in all of them.

prominence. But it clearly excels in all of them.

This is the Machine which has created such a sensation in threshing machine circles during the past two years. Furners who have grain to be threshed give it a decided preference on account of its grain saving qualities! Threshermen are giving in their allegiance as fast as they can sell their old machines so as to buy this—talking up their old ones till they get rid of them, only for that purpose! Manufacturers of and Agents for the old kinds have banded together, forgetting their quarrels and striking hands, in a vain endeavor to stay the tide of popular favor! Meanwhile the demand is such that those who want this improved Thresher must onput Eally.

Circulars Mailed "Free."—Circulars giving a full description of this unrivaled Thresher, Separator and Cleaner, and the Improved AULTHAN & TATLO. "MOUNTED" and "Down" Eight and Ten-Honsz Powens, together with many illustrations of devices used for threshing grain in ancient and modern times, will be mailed TREE to all who send in their names and post office addresses.

FROM HON. JAMES THOMPSON, Judge of the Supreme Court of Pennsylvania.

I consider "Hoofland's German Bitters" a cine in case of indiges pepsia. I can certify this from my experience of it.

Yours, With respect,

JAMES THOMPSON.

FROM REV. JOSEPH H. KENNARD, D.D., Pastor of the Tenth Baptist Church, Philadelphin.

Dr. JACKSON—DEAD SIR:—I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a sphere, I have in all cases declined; our wind a clear proof in various instances, and particularly in my own family, of the usefulness of Dr. Hog-land's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system and especially for my usual course, that for general debility or Liver course of pe cially for plaint, it is a safe preparation. In profit but usual into those who suffer from the course of Yours, very respec fully, J. H. KENNARD,

CAUTION.

Hoofland's German Remedies are counterfeiled The genuine have the signature of C. M. Jack 801 on the front of the outside wrapper of each bottle, and the name of the article blown in each bottle. All others are counterfeil.

Price of the Bitters, \$1 per bottle; Price of the Blitters, 31 per bottle;
Or, a half dozen for \$5.
Price of the Tonic, \$1 50 per botle; Or, a half dozen for \$7 50.
The tonic is put up in quart bottles.
Recollect that it is Dr. Hoofland's German
Remedics that are so universally used and so
highly recomnot allow the
duce you to take
he may say is
he may say is for profit on it. These Remedies will be sont by express to any locality upon

SEWING MACHINES.

THE SINGER MANUFACTURING CO.'S NEW FAMILY MACHINE.—No other family Sewing Machine has so rapidly won Javor in the household. The very large sales of that popular machine, as shown by official returns, far exceed those of any other company, and this factor result has been ewing to its real merits—hence its great and growing popularity. It is simple in construction, easily understood, easily operated—all its parts gliling smoothly and noiselessly along—not liable to get out of order, has capacity for a great range and variety of work, sewing all kinds of cloth and with all kinds of thread, and with the numerous attachments for hemming, cording, tucking, quilting, trimming, binding, raiding, &c., and embroidering of many ingenious, tasteful and difficult designs, is the most perfect of all family sewing machines. Any one who will take the trouble to eximine the merits of the different machines claiming attention, merits of the different machines claiming attention, can soon discover whether we claim too much for ours. It would avail us nothing to make the above assertions if we were not ready to prove them, and all we ask is a trial, for observation alone can justly convey a clear impression of the many kinds of work of which our new family machine is capable.

THE FOLDING CASES.

Which open with spacious tables to sustain the work, and which fold into tables or boxes to protect the machines, when not in use, from dust and med-dlesome fingers, are made from choice woods, embellished by pleasing designs, thus making our new family machine not only an ornameutal piece of furniture, but in some of the more elaborately finished machines, a work of real art.

THE ATTACHMENTS

Of our new family machine, above referred to, are not only numerous, but highly useful for the purposes for which they were intended. They need only a trial to show their great value. Among the most recent of the attachments is the

Of the different attachments of our new family muchine which have secured the attention and approval of our customers that for embroidering, like the Hemmer, is one of the few instruments which will most please and satisfy the observer of its real value. It is so simple in structure, that any one who can sew on our machine c: n use it, and without instruction. It may be attached to or detached from the machine in an instant. Without a lengthy description, and even then, it would be difficult to describe the great variety of work that this little in strument will do. The reader must not suppose that what we speak of is a mere chain stitch operation, which is sometimes humorously termed embroidery. If desired, three colors of any kind of thread may be used at any one time, and the colors or thread may be changed at the will of the operator, by removing the spools in use and putting others in their stead; thus as many or as few colors may be used as the operator wishes, in the embroidering of any garment. A great variety of results are produced by the manner in which the tensions are regulated. Different result may be produced while the machine is in motion by simply changing the tensions. Results vary according to the length of stitches, kinds, colors and tensions of the thread, as well as sizes of the needles used. The Embroiderer will use any kind of thread. The use of zephyr worsted for certain purposes gives very pleasing results. In order to get a just idea of this valuable Of the different attachments of our new family worsted for certain purposes gives very pleasing re-sults. In order to get a just idea of this valuable attachment it will be necessary to see it in opera-

Manufacturing Machines.-We would ask attention to our new Button hole Ma-chine, which is the only practical Button-hole Ma-chine claiming publi attention. Our manufactur-ing machines, for other purposes, are too well known

Machine Twist.—We have recently enlarged our Silk Mills in Newark, N J., and furnis sed them with the latest and most improved machinery, which is being operated by highly skilled labor. We know and feel the importance of not only supplying the users of our machines, but the trade generally with the best quality of Macsons Twist, which we sell by measure rather than by weight. The system of selling by weight has given manufacturers the opportunity of so heavily weight fing Silk in the process of dyeling as not only to greatly injure its quality, but also convey a wrong impression about its quantity. In this respect we mean to be above suspicion. The manner in which the sizes of silk are graduated is also a matter of great importance, but we use the greatest possible care that the graduating shall be exceeding accurate. In addition to manufacturing from the best quality of raw silk, the evenness of thread and beauty of finish of the manufactured article will not we think, be soon surpassed. Each spool of silk manufactured by us, of any particular size or letter, irrespective of weight, contains the number of yards printed thereon. Length, strength, size, quality and finish of the thread are to be looked to rather than weight. We are now silk manufacturers on a arge scale, and feel that a large trade can only be retained by us in furnishing a supcoior article at a a r price. If other brands of Twist be offered at a let i price than ours, purchasers may rest assured that it is inferior in quality, deficient in quantity, or both. Machine Twist.-We have re-
